MORE THAN A DIRECTORY

Built around how people actually make plans.

Cultured Compass brings local discovery and itinerary planning together in one visual, mobile-first experience. The platform covers restaurants, nightlife, hospitality, events, and experiences across the Metroplex, with a focus on making local discovery feel easier, more intentional, and more useful when it is time to decide where to go.

From inspiration to itinerary.

Cultured Compass is designed to shorten the distance between seeing something interesting and actually making plans around it.

Curated Discovery Explore restaurants, brunch, lounges, nightlife, rooftops, live music, events and other local experiences without relying on one endless list.	Built for DFW A local-first platform centered on Dallas-Fort Worth neighborhoods, hospitality concepts, openings, events and experiences.
Plan the Experience Users can move from discovery into planning by building, saving and sharing itineraries for a night out, celebration or weekend.	Designed for Going Out The experience connects multiple parts of a plan - dinner, drinks, entertainment and late night - rather than treating each stop in isolation.

EDITORIAL + HOSPITALITY INPUT

What we want on our radar.

Cultured Compass welcomes relevant news and updates from hospitality groups, public relations teams, venue representatives, and event organizers.

01	New Openings	Restaurants, bars, lounges, hotels, entertainment concepts and hospitality experiences.

03	Events + Experiences	Special events, live entertainment, seasonal programming, pop-ups and noteworthy experiences.
04	Venue Updates	New menus, meaningful concept changes, renovations, relocations and new programming.
05	Press + Media Assets	Press releases, fact sheets, approved photography, logos, menus and supporting materials.

Independent, local, and built with intention.

Melissa Gayle

Founder, Cultured Compass

Cultured Compass was founded by Melissa Gayle to create a more intentional way to discover Dallas-Fort Worth. After seeing how fragmented local discovery can feel across social media, search engines, event platforms, and individual venue websites, she created Cultured Compass as one destination for discovering the city and turning inspiration into actual plans.

The platform combines local discovery, hospitality, events, and itinerary planning in a visual experience designed around how people decide where to go.
